

# A1prices Pronto Pricing Structures ver 72 16mar21

Pronto product sell pricing structures are quite large and complex but do fall into 7 groups.

1. Basic product prices record is the default List and Retail price and must exist.
2. Custom price rules 20 to 99 definable rules.
3. Contract Pricing by Customer
4. Contract Pricing by Product
5. Discount Structures and Restrictions
6. Price List Processing
7. Competitor Pricing analysis.

The Default Full Pricing Menu keeps all option in one place instead in complex menus.

By law all import routines are self documenting to ensure multiple versions control.

Option I the price enquiry will identify all relevant prices and depending on the setting of Best Price Rule set to B or A will display the Best or The First Valid Price.
