

Inventory Review Mgt ver 220 5nov20

The Inventory Review Menu has 4 levels of access to satisfy the needs of product managers, marketing managers, logistics and warehousing staff as well a large range of tools and data grids for all staff.

The Default menu is.

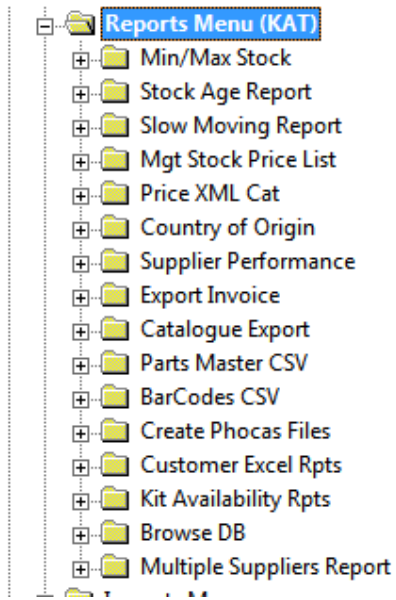

The first 5 options are the primary data grid forms to manage the inventory data base while the other 10 options facilitate other subsystem documented separately other than these menu options described below.

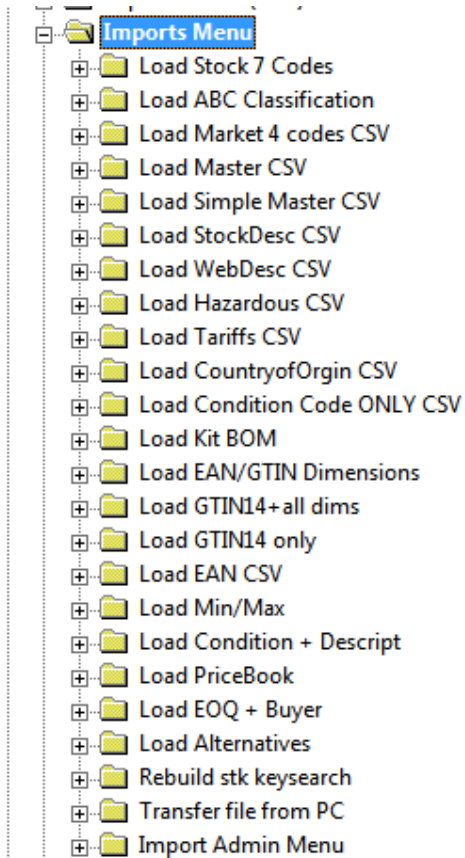

1. On Hand Reports . a menu of various stock on hand data grids.
2. Sales Reports. A menu of sales analysis data grids
3. Sell Thru Analysis. A GMROI analysis of stock on hand data grid
4. Planning Menu – access to Catalogue Grids and Reorder Grids.
5. Purchasing Subsystem (this menu has a VERY VERY large no of reports
6. Purchase Analysis Reports.
7. Key Performance Indicators and Reordering

8. Forecasting Sales and MRP functions.
9. Duplicate Stock in bulk or between data sets (companies).
10. Reports menu. Various data rid and CSV file generation options.
11. Import menu. Defines a set of data fix and import facilities.
12. Admin Menu.. this menu has a large election of one off fix processes.

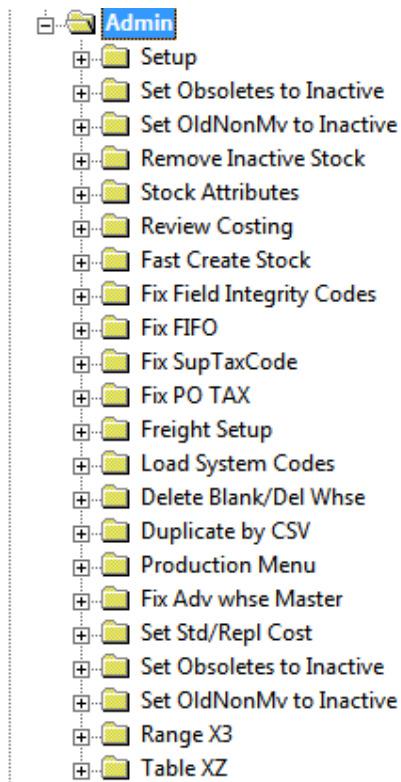

The Report Menu offers the following options.

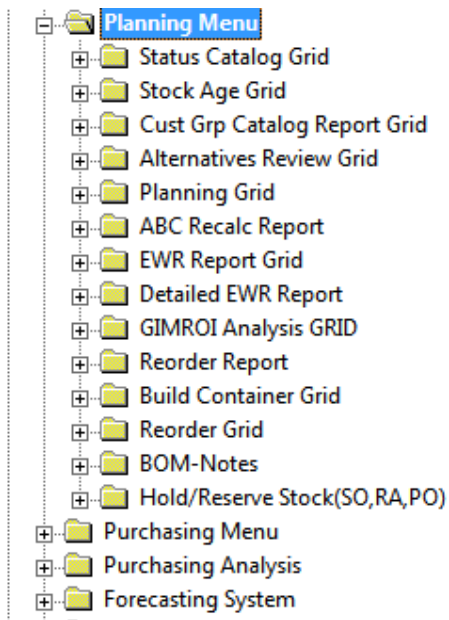

The Imports Menu

The Admin Menu offers the following options

The Planning Menu

The Primary Data Grids are as follows

1. Catalogue Review
