# A5Freight Fast Despatch Freight System ver 361

This program interfaces between PRONTO and the Freight Companies Consignment programs namely for Startrack, Toll, TNT, Rightway, The Fashion Movers, Direct Freight, IFS, Australia Post, Vic Tas , XL Freight, SM and several others. The Program captures and verifies dispatch details, and delivery address, it can calculate Freight Charges and send the details to freight subsystems to print carton and pallet labels. It can print the Labels, Invoices, Delivery Dockets, and it can print Manifests and Hazardous Handling instructions, Contents Labals, SSCC Labels and send manifest details to FTP services.
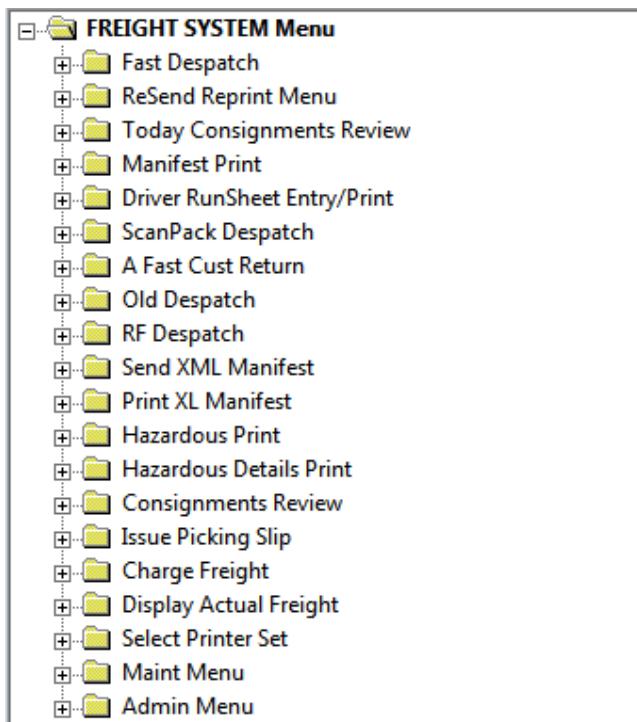

The Main Function is Fast Dispatch.

It accepts either a blank entry for a manual manifest and labels OR scan OR enter an order number (of form 999999XX where XX is optional suffix). The Help Key will allow an order/invoice enquiry by customer or Invoice number.

If the Order has already been Invoiced today , it will assume your correcting the consignment details and will re-ask , update order and send to Consignment program and reprint labels (manually check in consignment program). This Program has several configurable options and can differ from the following.

Standard Fast Dispatch has consolidation = ON and Charge Freight = ON.

Until The Invoice is printed an ESCAPE will back-out and do NOTHING.

** TEST Xi - B Fast Despatch

Scan(SO):

Fully Delivered:
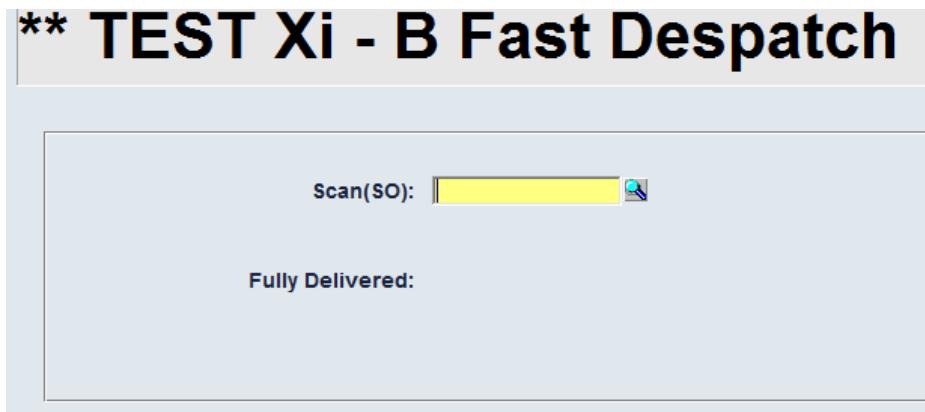

If the Order is PICKING SLIP Printed then it will display a warning about possible consolidation and the customer account-ode and a CREDIT WARNING if needed AND asks a CRITICAL QUESTION about fully picked and defaults to YES.

Fully Delivered: Y

1	Cust Orders to Consolidate
	HOUSWH
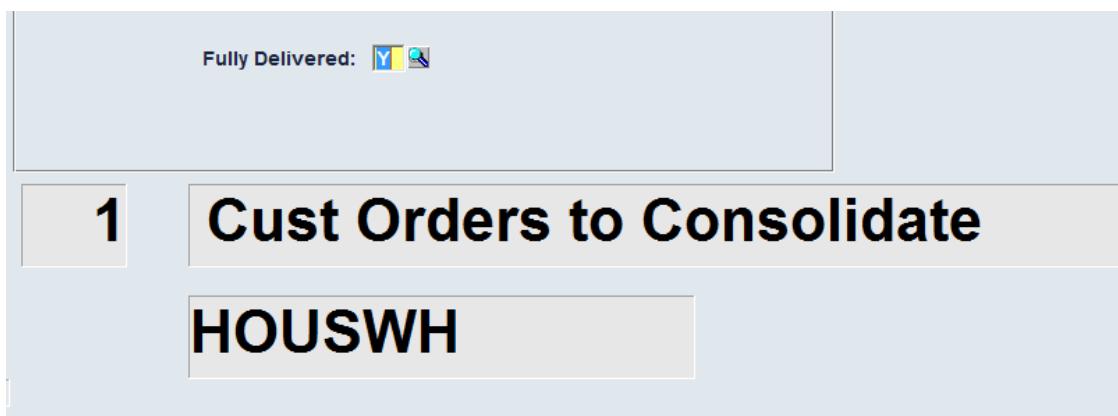

If all items on picking slip are picked and ready to despatch then accept YES

Else enter NO to fast edit the order ELSE select HELP for other options

A= Add to previous consignment E= edit uding Standard pronto despatch

B= Batch Pick Scan (multiple Orders - advanced warehousing)

C= Contents Label for this orderi OR L = Address Labels

D Delivery Docket print only I OR I = Reprint Invoice

If N or M entered the then fast edit options are presented (use E to Edit via standard pronto despatch screen)

Either Press Help at Line Number to review Lines on Order OR Enter Line Number to change qty shipped and balance Backordered ELSE ESCAPE to exit.

Modify Shipped Quantity

Order No:	844956

| LineNo:	3.00	SD66282	SWISS DIAMOND 28X28CM SQUARE

Shipped:	4		
NewQty:	4	BackOrdered:	
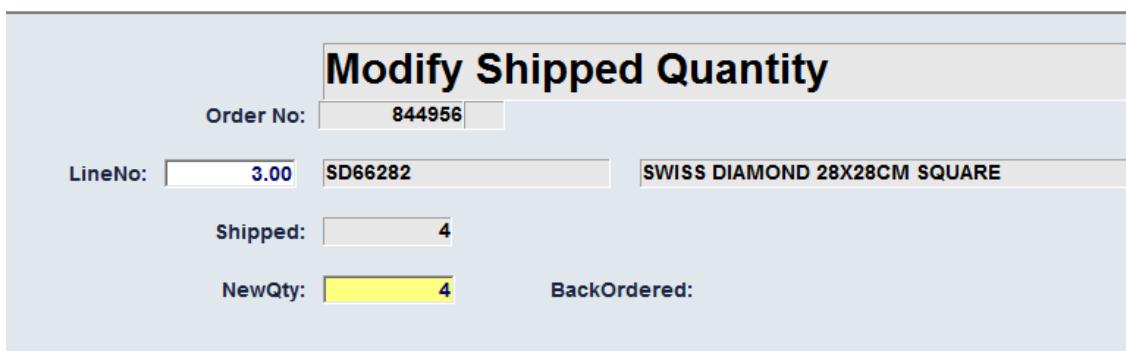

Folowed by Actual Shipped Quantity

If this is an advanced warehouse the reason for short ship is asked for so that the quanity required can be markeed LOST or Damaged.

The Order is automatically reTotaled and any previous invoice printed should be destroyed.

If Consolidation is applicable to this Customer the following is asked. If YES it asks for next order number.

FREIGHT SYSTEM
More Orders: N
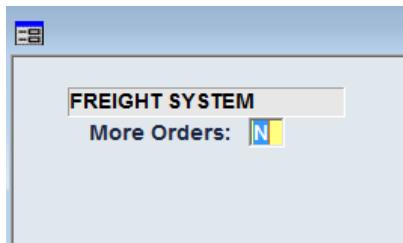

If No more orders then the Consignment Details are Confirmed

The carrier from the order is confirmed follwed by the Service type 1=ROAD by default (AirBags are allowed at this

point)

FREIGHT Details

Carrier:	RTW	🔍	Service:	1	ROAD EXPRESS

	Qty	Desc	Weight	Height	Cubic
Item 1:	0		0.00	0.0	0.0000
Item 2:	0		0.00	0.0	0.0000
Item 3:	0		0.00	0.0	0.0000
Item 4:	0		0.00	0.0	0.0000
Item 5:	0		0.00	0.0	0.0000

Connote No:	XBL000483679	Invoice No: 483679	P/S=	844956	
Receivers Name:	HOUSE IN WHITFORD				
Address 1:	SHOP 141 - WHITFORD S/CTR				
Address 2:	WHITFORD AVENUE				
Suburb:	HILLARYS				
State:	WA				
Postcode:	6025				
iver Label Message:					

Followed by up to 5 packages type lines (normally only ONE)

	Qty	Package Type	Kg Weight	CM Height	CM Depth	CM Width	M3 Cubic
Item 1:	2	C CTN	10.00	0.00	0.00	0.00	0.0000
Item 2:	1	P PALLET	0.00	1.30	1.20	1.20	1.8720
Item 3:							
Item 4:							
Item 5:							

Normally 1 label per carton is printed and 2 labels per pallet (PLEASE ensure these match product). The carton dimensions in cms are consfigurable and optional, The Height in Metres of pallets is mandatory. These figures and delivery zone are checked for freight charges and if applicaple confirmation of adding Freight Charge will Apply, If the weight is greater than allowed for AIR Freight then confirmation in Rep Blood will be required. If the estimated weight is different by more than 15 % to entered weight then confirmation will also be required.

Entry of Picker and Packer is a configurable option for performance analysis.

Validation occurs of the delivery address format and a VALID suburb/City with this State and Postcode MUST be on file else the entries edited and warning emails sent to ALL customer service persons and warehouse Management and order REP advising of the pain caused and possible failure to deliver..

The last line Deliver Label Message is an optional override of Consignment label contents for those carriers that cannot print proper details on their manifest (namely Rightway).

Freight Charge

Depending on Customer Setup Delivery Docket or Invoice or Both is asked

End of process PLEASE fold invoice and label cartons end continue with net order.

If Exceptions Occur the Main Menu offers Reprocess options to save STRESS.

- Consignments Review
